  - Picket Fence Paper
  - Flower Garden Paper
  - Artisan Tape (Bayberry)

### SUPPLIES NEEDED

- Paper Mache Hook
- Pearl Accents
- Metal Butterfly
- Rhinestones
- Sanding Block

ALTERED WOODEN HOOK by tina albertson

### TO CREATE THE ALTERED WOODEN HOOK:

#### STEP ONE

Paint the entire surface and sides of the plaque white. You will need to use at least 2 coats. Once dry, randomly sand the edges.

#### STEP TWO

Start out by taking the blue paper (Flower Garden) and cut it 4 x 3 1/4 in. Attach it roughly 1 3/4 in. from the top. Sand the edges.

#### STEP THREE

Punch two small circles and one medium circle from the Flower Garden paper, sand the edges, and attach randomly to the blue paper.

#### STEP FOUR

Slightly overlapping the blue paper, use the Artisan tape to create a border above the blue paper. It will be about 3 1/4 in. long.

#### STEP FIVE

Next, use the clear strips (again 3 1/4" long) and attach it right above the Artisan tape.

#### STEP SIX

Trim the green paper (Picket Fence)

to 2 1/4" x 3 1/4" long. Use a punch or decorative scissors to create a scallop border on one end. Attach right below the blue paper and sand the edges.

#### STEP SEVEN

Cut another piece of the green paper (Picket Fence) and cut it to 3/4" by 3 1/4". Again use a punch or decorative scissor to cut the edge of the paper. Attach right on top of the first layer of green paper and sand the edges.

#### STEP EIGHT

Cut the Bayberry Cottage ribbon pleat (in green) 3 1/4" and adhere over the blue and green paper to hide the seams.

#### STEP NINE

Use the Bayberry Cottage bella brad to decorate the center of a matching flower. Attach to the right of the ribbon pleat (I also cut made a little leaf for the flower).

#### STEP TEN

Punch a butterfly, bend the wings slightly, and attach to the flower or leaf.

#### STEP ELEVEN

Place a line of pearls along the ribbon pleat, and to the center of the butterfly.
